Each person starts with taking 4 cups, and hide them from their opponents. Then they play each two cups at the time, showing the other players what they are playing. If switching a cup, must use that cup. Best hand of the moment wins and gives one point, which balances towards zero. There should always be an unplayable number of cups left, and they can reduce the points of whoever won. True cups trump wild cups. Wild cups always give the best outcome. Best hands are: 5 different, 1 only, 5 same, 4 different, 4 same, 3 different, 3 same, 2 pairs, 2 same. Not everyone agrees on those and it can get pretty rowdy. The writer’s impression of what magic is makes its use of the logograph vary. Here, it is story magic, things that seem to unreal to be true. Using the cloth logogram, it’s regarding fate bending stuff. A magical prayer would use the Pleading logogram, and so on.
